WAR DEPARTMENT,

AR 600-35, November 10, 1941, is changed as follows:

9. Coat.—*a. Service.*

(1) *Winter* (see fig. 5).

(a) *For officers, warrant officers, and flight officers.*

1. *Material.*—Of adopted standard (par. 2a(1)(a)).

2. *General description.*

(a) *In general.*—A single-breasted collar and lapel coat; lining, if desired, to be same color as coat. To fit easy over the chest and shoulders and to be fitted slightly at the waist to conform to the figure, so as to prevent wrinkling or rolling under the leather belt when worn. The back to have two side plaits not less than 3 inches in depth at shoulders and to extend from the shoulder seam where it joins the armhole seam to waistline, buttoned down the front with four buttons equally spaced, the top three buttons to be large regulation coat buttons and the bottom button to be a plain four-hole 36-ligne button of bone, plastic, or other suitable material of a color closely approximating that of the coat. The crossing of the lapels will be approximately $1\frac{3}{4}$ inches above the top button.

Two metal hooks of the same material as the metal trimmings on the leather belt may be let into the side seams at the waistline at the option of the officer.

(b) *Collar and lapel.*—The collar to be approximately $15\frac{1}{2}$ inches for a 36-inch chest (relative measurements) and to be measured along the outside edge, with the ends cut back slightly, and not to be wider than $1\frac{3}{4}$ inches at the back seam nor wider than $2\frac{7}{8}$ inches at the junction with the lapel.

The top line of the lapel to be horizontal and the peak to extend approximately to the collar line prolonged.

The opening notch between the collar and lapel to be approximately $1\frac{3}{4}$ inches in depth.

d. Coat, mackinaw, for enlisted men.—As issued.

[A. G. 421 (11-2-42).] (C 6, Nov. 26, 1942.)

60. Belts.—*a. Officers.*

(2) The officers' belt, cloth (see fig. 50), matching the coat in color and fabric, $1\frac{3}{4}$ inches in width, equipped with a removable brass or

olive drab plastic $1\frac{3}{4}$ -inch tongueless bar buckle, and having a tapered end. At the option of the officer the belt may be fully detachable or sewed down around the waistline of the coat to a point approximately $2\frac{1}{2}$ inches from the front edge of the coat on each side. When the belt is detachable provision will be made for two $\frac{3}{8}$ -inch cloth belt loops placed at the side seams sewed on so that they will not mar the coat if removed for a sewed-on belt. The belt will cover the horizontal seam at the waistline of the coat, and the buckle will be centered over the bottom button of the coat when buttoned. The tapered end of the belt will pass through the buckle to the left, will extend not more than 3 inches beyond the buckle, and be held in place by a cloth keeper $\frac{1}{2}$ inch in width.

AR 600-35, November 10, 1941, is changed as follows:

Except as otherwise prescribed for flight officers, wherever the word "warrant officers" appear they will be construed to include flight officers.

9. Coat.—a. *Service* (see fig. 5).

(1) *Winter.*

(a) *For officers and warrant officers.*

* * * * *

2. *General description.*

(a) *In general.*—A single-breasted collar and lapel coat; lining, if desired, to be same color as coat. To fit easy over the chest and shoulders and to be fitted slightly at the waist to conform to the figure, so as to prevent wrinkling or rolling under the leather belt when worn. The back to have two side plaits not less than 3 inches in depth at shoulders and to extend from the shoulder seam where it joins the armhole seam to waistline, buttoned down the front with four large regulation coat buttons equally spaced. The crossing of the lapels will be approximately 1¾ inches above the top button.

To support the belt, except for officers of the Army Air Forces and flight officers, two metal hooks of the same material as the metal trimmings on the leather belt will be let into the side seams at the waistline.

For officers of the Army Air Forces and flight officers, the coat will have a belt approximately 2 inches wide of the same material as the coat, sewed down all around the waistline, with the bottom button placed slightly below the sewed-on belt.

No. 1 }

WAR DEPARTMENT,
WASHINGTON, September 4, 1942.

AR 600-35, November 10, 1941, is changed as follows:

2. Adopted standards of cloths.—The standards of cloths are as follows:

a. For officers, warrant officers, and contract surgeons.

* * * * *

(2) For summer uniform.—Coat; breeches, trousers; shirts; caps, service; caps, garrison.

* * * * *

(e) Gabardine, khaki.

* * * * *

[A. G. 421 (4-13-42) (5-4-42).] (C 1, Sept. 4, 1942.)

9. Coat.—a. Service.

(1) Winter (see fig. 5).

(a) For officers and warrant officers.

* * * * *

(b) For enlisted men.—As issued.

(2) Summer, for officers and warrant officers (see fig. 5½).

(a) Material.—Of adopted standard (par. 2a(2)).

(b) General description.

1. In general.—A single-breasted semiformal-fitting sack coat, extending to crotch, with no pronounced flare or waistline seam. To fit easily over the chest and shoulders and to be fitted slightly at the waist to conform to the figure. The left front to appear straight from top button to bottom of front; buttoned down the front with four large regulation coat buttons equally spaced. Sufficient flare to be on the right front in order to remain underlapped. All buttons to be detachable.

2. Back.—A vent in the back to extend from immediately below waistline to bottom, following the back seam and with an underlap of approximately 2½ inches.

3. Collar and lapel.—The collar to measure approximately 1½ inches in width at the back, the opening between collar end and lapel not to exceed

*These changes supersede section II, Circular No. 264; paragraph 1, Circular No. 267, War Department, 1941; section VI, Circular No. 49; sections II and VI, Circular No. 71; section II, Circular No. 72; section I, Circular No. 73; paragraph 1, section I, Circular No. 75; section V, Circular No. 82; paragraph 1, section IV, Circular No. 91; section III, Circular No. 98; paragraph 1, section VI, Circular No. 112; paragraph 2a, Circular No. 129; section II, Circular No. 130; section II, Circular No. 144; section V, Circular No. 165; section III, Circular No. 181; section IV, Circular No. 188; paragraph 1, section IV, Circular No. 200; section I, Circular No. 202; section IV, Circular No. 207; section VI, Circular No. 226; and section II, Circular No. 245, War Department, 1942.

$\frac{1}{2}$ inch. The lapels to be semipeaked, not wider than $\frac{1}{2}$ inch more than the collar end, and the top edge to be horizontal.

4. *Shoulder loops*.—On each shoulder a loop, let in at the sleeve head seam and reaching to edge of collar. Upper end pointed and buttoned to coat with a small regulation coat button. Width of loop at lower end $2\frac{1}{2}$ inches, tapering to $1\frac{1}{2}$ inches at a distance of $\frac{3}{4}$ inch from pointed end.
5. *Ornamentation*.—For officers a band of khaki color braid $\frac{1}{2}$ inch in width on each sleeve, the lower edge 3 inches from end of sleeve. For warrant officers who served honorably as commissioned officers in the first World War a similar band of forest green braid similarly placed. Other warrant officers will have no braid on the sleeves.
6. *Pockets*.—Four outside pockets, two upper and two lower, of suitable size according to size of coat. Each pocket covered with a flap, pointed at corners and center, buttoned at center with a small regulation coat button, and placed with upper edges in a prolonged horizontal line.

(a) *Upper*.—The two upper pockets to be patch pockets, slightly rounded at lower corners, with a box plait $1\frac{1}{2}$ inches in width on the vertical center line. The following dimensions are not to be exceeded: Depth, $6\frac{1}{2}$ inches; width at top, 5 inches; at bottom, 5 inches. The flap buttons to be on a line with the top button of coat. Lower outside corners of top pocket flaps may be blind-tacked.

(b) *Lower*.—The two lower pockets to be hung inside the coat with the opening in the body below waistline. The following dimensions are not to be exceeded: Depth, 9 inches; width at top, 7 inches; at bottom, 8 inches.

[A. G. 421 (4-13-42) (5-19-42).] (C 1, Sept. 4, 1942.)

b. *Overcoat*.

(1) *Long*.

(a) *For officers (see fig. 6) and warrant officers*.

1. *Material*.—Of adopted standard (par. 2a(1)(d)).

2. *General description*.

(a) *In general*.—A double-breasted ulster with convertible style roll collar and notch lapel, lining of same color as ulster; buttoned down the front with a double row of large regulation overcoat buttons, three on each side below the roll of the lapel with top but-

tons approximately 6½ to 7 inches apart; a 36-line button placed inside behind the top left large regulation front button for use in holding right front fly in place; a button placed under the right collar and a buttonhole at the top of each lapel, one for use when collar is converted and the other for appearance; the lining slit and fastened to pocket openings to allow the hand to go through to pocket of breeches or trousers; slit closed with a small button and buttonhole. Back to be plaited and to have back straps let into the side seams at the waistline, fastened together with two large regulation buttons and buttonholes. Skirt not longer than 10 inches or shorter than 3 inches below the knee; slit in the back extending from bottom of back strap to bottom of skirt and closing with small concealed buttons and buttonholes. The front corners to be provided with buttons and buttonholes so that the corners may be turned back to facilitate marching.

SECTION I

GENERAL

	Paragraph
General-----	1
Adopted standards of cloths-----	2
Adopted shade of leather-----	3
Fitting of uniforms-----	4

1. General.—a. Samples of the adopted shades and standard cloths for uniforms will be maintained on display in the office of The Quartermaster General and at the headquarters of all corps areas and stations. Samples of the several issue articles of the prescribed uniform and other clothing, as approved by the Secretary of War, will be maintained on display in the office of The Quartermaster General, and in such other offices as he may prescribe. Specifications for the several articles of uniform and other clothing, as approved by the Secretary of War, are published by The Quartermaster General. Descriptions for certain of such articles are published herein.

b. Prescribed articles of service uniforms or other clothing, except such articles specified as of "commercial pattern" will conform in quality, design, and color to the corresponding approved samples and published specifications.

c. Whenever changes in design or material of uniforms are made, the old style may be continued to be worn as authorized in AR 600-40.

*This pamphlet supersedes AR 600-35, December 31, 1926, including C 2, August 22, 1933; paragraph 1, section I, Circular No. 45, War Department, 1933; paragraph 2a, section II, Circular No. 48, War Department, 1935; section IV, Circular No. 35, War Department, 1936; section III, Circular No. 54, and section I, Circular No. 58, War Department, 1937; paragraph 1, section II, Circular No. 14, War Department, 1938; paragraph 2, section VI, Circular No. 67, War Department, 1939; paragraph 1, Circular No. 10, section III, Circular No. 21, section IV, Circular No. 31, section IV, Circular No. 45, Circular No. 52, section IV, Circular No. 60, paragraph 2a, section IV, Circular No. 63, section I, Circular No. 76, paragraph 1, section II, Circular No. 113, and paragraph 2a, Circular No. 157, War Department, 1940; and section II, Circular No. 49, section I, Circular No. 108, and section III, Circular No. 115, War Department, 1941.

2. Adopted standards of cloths.—The standards of cloths are as follows:

a. For officers, warrant officers, and contract surgeons.

(1) For winter uniform.

(a) Coats; breeches; trousers; caps, service; caps, garrison.—Wool, elastique, olive-drab (dark shade), 18-26-ounce.

(b) Breeches and trousers.—Wool, elastique, drab (light shade), 18-26-ounce.

(c) Shirts.

1. Flannel, olive-drab, 10½-ounce.

2. Worsted, olive-drab, 10½-ounce.

3. Gabardine, olive-drab, 10½-ounce.

4. Broadcloth, cotton, olive-drab or khaki.

5. Poplin, cotton, olive-drab or khaki.

(d) Overcoats.

1. Beaver, olive-drab, 26-32-ounce.

2. Doeskin, olive-drab, 26-32-ounce.

3. Kersey, olive-drab, 26-32-ounce.

4. Melton, olive-drab, 26-32-ounce.

(e) Jacket, field.—Cotton cloth, olive-drab, wind resistant and water repellant.

(2) For summer uniform.—Breeches; trousers; shirts; caps, service; caps, garrison.

(a) Cotton, khaki, 8.2-ounce.

(b) Rayon, plain weave, khaki, 7-8-ounce.

(c) Cotton warp, mohair filling, khaki.

(d) Worsted, tropical, khaki.

b. For enlisted men.—As issued.

c. For aviation cadets.—As issued.

(d) For Army nurses.—As issued.

3. Adopted shade of leather.—The adopted shade of all leather in clothing and articles of equipment as listed herein, except as noted, will be known as "Army russet."

4. Fitting of uniforms.—a. The correct fitting of uniforms is so necessary to the military appearance of a command that it is made the distinct duty of all commanding officers of every grade personally to see that each member of his command is properly fitted with a smart uniform. The company or detachment commander will be held responsible by all inspectors that his men have properly fitting uniforms.

b. The quartermaster at each post, camp, and station will keep one garment of each of the sizes for use by organization commanders in determining satisfactory fits for the enlisted men of their organizations. These "try-on" garments will be returned to stock before they become unserviceable for issue and will be replaced by corresponding sizes from stock. A "fitting" room, or other suitable place, equipped with the "try-on" sizes of clothing will be maintained at all posts, camps, and stations.

5. Application of regulations contained in this section.—Except as otherwise specifically prescribed, the regulations contained in the following paragraphs of this section apply to, and only to, articles for officers, Army nurses when applicable, warrant officers, and contract surgeons. All articles of uniform for wear by the General of the Armies, the Chief of Staff, and former Chiefs of Staff are such as each may prescribe for himself.

6. Belt, waist.—A 1¼-inch olive drab web belt equipped with tongueless strap buckle.

7. Breeches, service (see fig. 2)—*a. Material of adopted standard.*

- (1) To match the service coat (par. 2*a*(1)(*a*) and (2).
- (2) Lighter color than the service coat (par. 2*a*(1)(*b*).

b. In general.—To be cut snug at the waist, top about 2 inches above hip bone, full in the seat and loose in the thigh, with sufficient length from waist to knee to permit wearer to assume a squatting position without binding at the seat or knee, breeches to present an appearance of fullness when standing; cut tight for about 3 inches immediately below the knee and easy for the balance of the length so as not to bind the muscles of the calf. To have a strapping of the same material or buckskin of similar color on the inside of the leg at the knee, extending to a little below the top of boot and from 6 to 8 inches above the knee.

8. Buttons (see fig. 4).—*a. Coat.*

- (1) *Except for officers of the Corps of Engineers.*—Of gold or gold color metal, of suitable composition and weight, circular and slightly convex, with raised rim, coat of arms of the United States in clear relief against a horizontally lined background. To be 36 ligne (¾ inch) for large, 25 ligne (⅝ inch) for small.
- (2) *For officers of the Corps of Engineers.*—Of gold or gold color metal, of suitable composition and weight, circular and slightly convex, with raised rim and lined background, having for the device a flying eagle holding in its beak a ribbon scroll bearing the word “Essayons,” in the distance a bastion with embrasures surrounded by water, and on the horizon a rising sun. Same size as prescribed in (1) above.

b. Overcoat.—Of vegetable ivory or horn, conforming in color to the material of the coat. Two sizes—45 ligne ($1\frac{1}{8}$ inches) for large, 25 ligne ($\frac{5}{8}$ inch) for small.

c. Cap, service.—Same as small size on coats in *a*(1) above.

d. For enlisted men.—Same description as in *a*(1) above. For coats 36 ligne ($\frac{9}{10}$ inch) and 25 ligne ($\frac{5}{8}$ inch); for caps 25 ligne ($\frac{5}{8}$ inch); for overcoats 45 ligne ($1\frac{1}{8}$ inches) of gold color metal.

9. Coat.—*a. Service* (see fig. 5).

(1) *For officers and warrant officers.*

(a) *Material.*—Of adopted standard (par. 2a(1)(a)).

(b) *General description.*

1. *In general.*—A single-breasted collar and lapel coat; lining, if desired, to be same color as coat. To fit easy over the chest and shoulders and to be fitted slightly at the waist to conform to the figure, so as to prevent wrinkling or rolling under the leather belt when worn. The back to have two side plaits not less than 3 inches in depth at shoulders and to extend from the shoulder seam where it joins the armhole seam to waistline, buttoned down the front with four large regulation coat buttons equally spaced. The crossing of the lapels will be approximately $1\frac{3}{4}$ inches above the top button.

To support the belt, except for officers of the Army Air Forces, two metal hooks of the same material as the metal trimmings on the leather belt will be let into the side seams at the waistline.

For officers of the Army Air Forces, the coat will have a belt approximately 2 inches wide of the same material as the coat, sewed down all around the waistline, with the bottom button placed slightly below the sewed-on belt.

2. *Collar and lapel.*—The collar to be approximately $15\frac{1}{2}$ inches for a 36-inch chest (relative measurements) and to be measured along the outside edge, with the ends cut back slightly, and not to be wider than $1\frac{3}{4}$ inches at the back seam nor wider than $2\frac{7}{8}$ inches at the junction with the lapel.

The top line of the lapel to be horizontal and the peak to extend approximately to the collar line prolonged.

The opening notch between the collar and lapel to be approximately $1\frac{3}{4}$ inches in depth.

3. *Pockets.*—There will be four outside pockets, two upper and two lower, covered with flaps, buttoned with small regulation coat buttons at the center and placed so that the upper lines are horizontal. The two upper pockets to be patch pockets, slightly rounded at the lower corners, with a box plait $1\frac{1}{2}$ inches in width on the vertical center line. The flaps to be rounded slightly at the corners and reaching to a slight point

PRESCRIBED SERVICE UNIFORM

at the center. The flap buttons to be on line with the top button of coat.

The two lower pockets to be hung inside the body of the skirt, covered by flaps with the lower corners slightly rounded and the lower edge horizontal. The pockets to be attached to the body of the skirt only at the mouth. The top lines of the lower pocket flaps to be placed slightly below the waistline.

The pockets will be of suitable size according to the size of the coat, but in no case will they exceed the following dimensions:

Upper pockets.—Depth $6\frac{1}{2}$ inches; width at top $5\frac{3}{4}$ inches, at bottom $5\frac{3}{4}$ inches.

Lower pockets.—Depth 10 inches; width at top $8\frac{1}{2}$ inches, at bottom 12 inches.

4. *Shoulder loops.*—On each shoulder a loop of same material as the coat, let in at the sleeve head seam and reaching to approximately $\frac{3}{4}$ inch beneath the collar, buttoning at the collar edge with a small regulation coat button. Loops to be about $2\frac{1}{2}$ inches in width at lower end and $1\frac{1}{2}$ inches in width at collar edge and cross-stitched down to shoulder for a distance of about 2 inches from lower end.

5. *Skirt.*—The skirt to be full with a slight flare, and to extend 1 to 2 inches below the crotch, according to the height of the wearer, with a slit in the back extending from the waistline to the bottom of the skirt following the back seam with an underlap of approximately $2\frac{1}{2}$ inches. The front overlapping left edge of coat to be cut with a pronounced flare to the right from the bottom button to the bottom of the skirt, so as to appear straight from the lapel opening to the bottom of the coat and to remain overlapped not less than 4 inches when in a standing position, without the use of hooks and eyes, the fullness necessary to accomplish this result being over the hips.

6. *Ornamentation.*—For officers a band of olive-drab braid $\frac{1}{2}$ inch in width on each sleeve, the lower edge 3 inches from end of sleeve. For warrant officers and enlisted men who served honorably as commissioned officers in the World War a similar band of forest green braid similarly placed. Other warrant officers will have no braid on the sleeves.

(2) *For enlisted men.*—As issued.

b. *Overcoat.*

(1) *Long.*

(a) *For officers (see fig. 6) and warrant officers.*

1. *Material.*—Of adopted standard (par. 2a(1)(d)).

2. *General description.*

(a) *In general.*—A double-breasted ulster with convertible style roll collar and notch lapel, lining

PERSONNEL

of same color as ulster; buttoned down the front with a double row of large regulation overcoat buttons, three on each side below the roll of the lapel with top buttons approximately $6\frac{1}{2}$ to 7 inches apart; a button placed under the right collar and a buttonhole at the top of each lapel, one for use when collar is converted and the other for appearance; the lining slit and fastened to pocket openings to allow the hand to go through to pocket of breeches or trousers; slit closed with a small button and buttonhole. Back to be plaited and to have back straps let into the side seams at the waistline, fastened together with two large regulation buttons and buttonholes. Skirt not longer than 10 inches or shorter than 3 inches below the knee; slit in the back extending from bottom of back strap to bottom of skirt and closing with small concealed buttons and buttonholes. The front corners to be provided with buttons and buttonholes so that the corners may be turned back to facilitate marching.

(b) *Pockets*.—Two outside welted pockets, one on each side, with vertical openings; the center of pocket about opposite lower button and placed on a line with front seam of sleeve.

(c) *Shoulder loops*.—On each shoulder a loop about 5 inches in length, $2\frac{1}{2}$ inches in width at the lower end and $1\frac{1}{2}$ inches in width at the upper end, which is slightly pointed, same material as the coat, let in at the sleeve head seam, buttoning at the upper end with a small regulation overcoat button.

(d) *Ornamentation*.

(1) *For general officers*.—Two bands of black braid, the lower band to be $1\frac{1}{4}$ inches in width and about $2\frac{1}{2}$ inches from the lower edge of the sleeve, the other to be $\frac{1}{2}$ inch in width and $1\frac{1}{2}$ inches above the lower band.

(2) *For all other officers and warrant officers*.—Sleeves to be plain.

(b) *For enlisted men*.—As issued.

(2) *Short*.—For officers (see fig. 7) and warrant officers.

(a) *Material*.—Of adopted standard (par. 2a(1)(d)).

(b) *General description*.

1. *In general*.—A double-breasted coat, lined or unlined, with a shawl roll collar approximately 5 inches in width, buttoned down the front with a double row of large regulation overcoat buttons, three on each side below the roll of collar with additional buttons or loops so

PRESCRIBED SERVICE UNIFORM

that the coat can be buttoned to the neck. A detachable belt of same material as coat, held in place with loops sewed on at side seams.

2. *Pockets*.—Two outside patch pockets, one on each side.
3. *Shoulder loops*.—On each shoulder a loop about 5 inches in length, $2\frac{1}{2}$ inches in width at the lower end and $1\frac{1}{2}$ inches in width at the upper end, which is slightly pointed, of same material as coat, let in at the sleeve head seam and buttoned at the upper end with small regulation overcoat button.
4. *Skirt*.—Skirt to extend to 6 inches above the knee. Slit in the back extending about 15 inches from the bottom.
5. *Ornamentation*.

(a) *For general officers*.—Two bands of black braid, the lower band to be $1\frac{1}{4}$ inches in width and about $2\frac{1}{2}$ inches from the lower edge of the sleeve, the other to be $\frac{1}{2}$ inch in width and $1\frac{1}{2}$ inches above the lower band.

(b) *For all other officers and warrant officers*.—Sleeves to be plain.

c. *Raincoat for officers and warrant officers*.—A waterproof coat of commercial pattern, with shoulder loops, as nearly as practicable olive-drab color.

10. Footgear (see fig. 8).—a. *Boots*.

(1) *Officers and warrant officers*.

(a) *Dress*.—Army russet leather of commercial pattern without lacing.

(b) *Semidress*.—Army russet leather of commercial pattern laced at the instep for a distance not to exceed 10 inches, may have an opening not to exceed 4 inches at the top closed with lacing or strap.

(c) *Field*.—Army russet leather, legging top pattern, with three buckles on the side or with laces.

(d) *Rubber*.—Russet, waterproof, commercial pattern.

(2) *Enlisted men*.—As issued.

b. *Leggings, canvas*.—For officers, warrant officers, and enlisted men to be of adopted standard and design.

c. *Shoes*.

(1) *Officers and warrant officers*.—Commercial pattern, high or low, Army russet leather.

(2) *Enlisted men*.—As issued.

11. Gloves.—a. *Dress*.

(1) Chamois leather or chamois color material.

(2) White cotton or lisle.

b. *Service*.

(1) Leather of light russet color, lined or unlined, snap fastener, pull-on or buckle type.

(2) Wool, olive-drab.

12. *Headgear* (see fig. 9).—a. *Cap, garrison*.—For officers, warrant officers, and enlisted men.

(1) *Material*.—Of adopted standard (par. 2a(1)(a) and (2)).

- (2) *General description*.—A standard adopted design with curtain and with a cord edge braid as indicated in paragraph 23.

b. Cap, service.

- (1) *Officers except of the Army Air Forces and warrant officers.*

(a) *Material*.—Of adopted standard (par. 2a(1)(a) and (2)).

(b) *General description*.—Of adopted design about 11¼ inches from front to rear and 10½ inches from side to side, based on size 7⅛, stiffened in front by springs and falling without stiffening to the rear; two eyelets ½ inch from the welt seam and about ¾ inch on each side of side seam of quarters. Top to be stiffened at rim with grommet and cloth on top of crown to be slack. The grommet used to stiffen the rim will be flat ⅜ inch in width (measurements of crown above to be made with grommet in position in cap), inside of top to have a waterproof material cut to the size of the crown.

Top of visor of Army russet leather lined with embossed green hatters' leather, waterproofed. Greatest width of visor about 2⅜ inches and slope from vertical about 55 degrees.

Chin strap of Army russet leather, ¾ inch in width and 9½ inches in length fastened at each end of visor with small regulation cap button.

A band of olive-drab braid about 1⅞ inches in width around entire cap.

- (2) *Officers of Army Air Forces.*

(a) *Material*.—Of adopted standard (par. 2a(1) and (2)).

(b) *General description*.—A cap of similar design to that described in (1) above except front spring stiffening may be omitted and the grommet may be removed.

- (3) *Enlisted men*.—As issued; similar type of cap without band of braid.

c. Cap, winter.—For officers, warrant officers, and enlisted men.

22. General.—a. Except as otherwise prescribed, insignia for wear upon uniform clothing will be made of gold or gold color metal.

b. Elements superimposed on insignia of officers, except as otherwise prescribed, will be of bronze finish or brown enamel.

c. Elements superimposed on insignia of enlisted men will be of the same material as the insignia.

d. Certain insignia which involve the use of heads will be made to face to dexter.

e. Metal insignia will have screw backs or similar attachments so that they will be held closely without turning or flopping.

f. Insignia of grade for shoulder loops may be embroidered.

g. Metal insignia of grade may be knurled or smooth.

~~23~~ Insignia and ornamentation for headgear.—a. Cap, garrison.

(1) Ornamentation.

(a) *General officers*.—Cord edge braid of gold bullion or metallized cellophane of gold color.

(b) *Other officers*.—Cord edge braid of gold bullion or metallized cellophane of gold color and black silk intermixed.

(c) *Warrant officers*.—Cord edge braid of silver bullion or metallized cellophane of silver color and black silk intermixed.

(d) *Enlisted men*.—Cord edge braid of the color of arm, service, or bureau.

(2) Metallized cellophane should not be used on caps which will be washed.

b. Cap, service (see fig. 11).

(1) *Officers*.—The coat of arms of the United States $2\frac{3}{8}$ inches in height.

(2) *Warrant officers*.—The warrant officers' insignia $1\frac{1}{2}$ inches in height.

(3) *Enlisted men*.—A plain disk $1\frac{1}{2}$ inches in diameter, in a separate piece superimposed thereon the coat of arms of the United States of the same material as the disk.

c. Hat, service.

- (1) *General officers.*—A double cord of gold bullion or metallized cellophane of gold color $\frac{3}{16}$ inch in diameter, with an acorn of same material $1\frac{1}{4}$ inches in length with cup $\frac{5}{8}$ inch in diameter and kernel $\frac{3}{8}$ inch in diameter. Keeper to be of same material $\frac{5}{8}$ inch in length and $\frac{5}{8}$ inch in diameter with inside diameter of $\frac{3}{8}$ inch to hold both ends and one loop of cord.
- (2) *Other officers.*—Same as for general officers except the cord to be of gold bullion or metallized cellophane of gold color and black silk intermixed. The acorns and keeper to be of gold bullion or metallized cellophane of gold color.
- (3) *Warrant officers.*—Same dimensions as for general officers, the cord to be of silver or metallized cellophane of silver color and black silk intermixed. The acorns and keeper to be of black silk.
- (4) *Enlisted men.*—To be a double cord of the color of the arm, service, or bureau. When two colors are prescribed for an arm, service, or bureau, the cord will be in the first named color and the acorns and keeper will be in the second named color. Except when detailed for temporary duty during field training, Regular Army enlisted personnel on duty as instructors with the National Guard will wear hat cord of the color of the National Guard Bureau.

24. Insignia for collar and lapel of coat.—*a. General of the Armies of the United States, Chief of Staff, former Chiefs of Staff, and generals.*—Insignia will be such as they may prescribe.

b. Other officers, Army nurses, and warrant officers.

- (1) *U. S.*—The block letters "U. S." $\frac{7}{16}$ inch in height, each letter to be followed by a period. To designate officers of the Federally recognized National Guard the letters forming the abbreviation of the name of the State, as prescribed in paragraph 64, $\frac{3}{16}$ inch in height superimposed on the "U. S."

31 Medal of Honor (see fig. 18).—A bronze five-pointed star $1\frac{9}{16}$ inches in diameter, surrounded by a laurel wreath in green enamel, suspended by two links from a bronze bar bearing the inscription "Valor," and surmounted by an eagle. In the center of the star is the head of Minerva surrounded by the inscription "United States of America." Each ray of the star bears an oak leaf in green enamel. On the reverse of the bar are stamped the words "The Congress to," and on the reverse of the medal are engraved the grade, name, and organization of the recipient, with the place and date of the act for which the medal is awarded. The medal is suspended by a ribbon passed through a ring fastened to the eagle. The head of the eagle hangs 2 inches below the top of the ribbon. This, in turn, is suspended from a neckband of ribbon 20 inches in length, on which is placed a hook. A hanger attachment, consisting of a ring through which the hook is placed when the medal is worn on neckband, may be added on the back of pin bar of medal. The ribbon is of light blue watered silk $1\frac{3}{16}$ inches in width. Midway between the ends of the neckband and on the ribbon supporting the medal are 13 white stars arranged in the form

of a triple chevron, the upper chevrons consisting of 5 stars each and the lower one of three stars.

32. Distinguished-Service Cross (see fig. 19).—A cross of bronze 2 inches in height and $1\frac{13}{16}$ inches in width with an eagle on the center, and a scroll below the eagle bearing the inscription "For Valor." On the reverse, in the center of the cross, is a space for the name of the recipient (which is to be engraved) within a wreath. The cross is suspended by a ring from a watered-silk ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in width, composed of a band of red ($\frac{1}{8}$ inch), white ($\frac{1}{16}$ inch), blue (1 inch), white ($\frac{1}{16}$ inch), and red ($\frac{1}{8}$ inch). All crosses to be serially numbered on the side of the upright of the cross.

33. Distinguished-Service Medal (see fig. 20).—The coat of arms of the United States in bronze surrounded by a circle of dark blue enamel $1\frac{1}{2}$ inches in diameter, bearing the inscription "For Distinguished Service—" (year to be shown in roman numerals). On the reverse is a scroll for the name of the recipient (which is to be engraved) upon a trophy of flags and weapons. The medal is suspended by a bar from a watered-silk ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in width, composed of a band of scarlet ($\frac{5}{16}$ inch), a stripe of dark blue ($\frac{1}{16}$ inch), a band of white ($\frac{5}{8}$ inch), a stripe of dark blue ($\frac{1}{16}$ inch), and a band of scarlet ($\frac{5}{16}$ inch). All medals to be serially numbered on the rim.

34. Silver Star (see fig. 21).—A bronze star $1\frac{1}{2}$ inches in circumscribing diameter. In the center thereof a $\frac{3}{16}$ -inch diameter raised silver star, the center lines of all rays of both stars coinciding. The reverse to have the inscription "For gallantry in action" and a space for the name of the recipient (which is to be engraved). The star is suspended by a rectangular-shaped metal loop with corners rounded from a silk moire ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in width, composed of stripes of blue ($\frac{3}{32}$ inch), white ($\frac{3}{64}$ inch), blue ($\frac{7}{32}$ inch), white ($\frac{7}{32}$ inch), red ($\frac{7}{32}$ inch), white ($\frac{7}{32}$ inch), blue ($\frac{7}{32}$ inch), white ($\frac{3}{64}$ inch), and blue ($\frac{3}{32}$ inch). All stars to be serially numbered on lower sinister edge.

35. Purple Heart (see fig. 22).—On a purple enameled heart within a bronze border a profile head in relief of General George Washington in military uniform. Above the enameled heart the shield of Washington's coat of arms between two sprays of leaves in green enamel. On the reverse below the shield and leaves without enamel, a raised bronze heart with the inscription, "For Military Merit", with a space for the name of the recipient (which is to be engraved). The entire device is $1\frac{1}{16}$ inches in length. The medal is suspended by a rectangular-shaped metal loop with corners rounded from a silk moire ribbon $1\frac{3}{8}$ inches in width and $1\frac{3}{8}$ inches in length, consisting of a purple (pansy) center with $\frac{1}{8}$ -inch white edges. All hearts to be serially numbered on the lower left hand rim.

36. Soldier's Medal (see fig. 23).—On a $1\frac{3}{8}$ -inch bronze octagon an eagle displayed, standing on a fasces, between two groups of stars of six and seven, above the group of six a spray of leaves. On the reverse a shield paly of 13 pieces on the chief, the letters "U. S." supported by sprays of laurel and oak, around the upper edge the inscription "Soldier's Medal" and across the face the words "For Valor." In the base a panel for the grade, name, and organization of the recipient, with date of order awarding the decoration (which is to be engraved). The medal is suspended by a rectangular-shaped metal loop with corners rounded from a silk moire ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in

width composed of two outside stripes of blue $\frac{3}{8}$ inch in width, the center containing 13 white and red stripes of equal width (7 white and 6 red). All medals to be serially numbered on the lower rim.

37. **Distinguished-Flying Cross** (see fig. 24).—On a bronze $1\frac{1}{2}$ -inch cross patee a four-bladed propeller $1\frac{11}{16}$ inches across blades; in the reentrant angles, rays forming a 1-inch square. On the reverse are engraved the grade, name, and organization of the recipient, with date of order awarding the decoration. The cross is suspended by a plain straight link from a silk moire ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in width, composed of stripes of blue ($\frac{1}{8}$ inch), white ($\frac{1}{8}$ inch), blue ($\frac{11}{32}$ inch), white ($\frac{1}{32}$ inch), red ($\frac{3}{32}$ inch), white ($\frac{1}{32}$ inch), blue ($\frac{11}{32}$ inch), white ($\frac{1}{8}$ inch), and blue ($\frac{1}{8}$ inch). All crosses to be serially numbered on the rim.

38. **Oak-Leaf Cluster** (see fig. 25).—A bronze twig of four oak leaves with three acorns on the stem $1\frac{3}{32}$ of an inch in length.

39. **Citation Star** (see fig. 45).—A silver star $\frac{3}{16}$ of an inch in diameter.

40. **Fourragere**.—*a. General*.—A single cord braided and knotted, of yellow with green threads for four citations and of dark green with scarlet threads for two citations, terminated at the shoulder end with a buttonhole and at the free end with a ferret of blue metal. 41. Civil War Campaign Medal (see fig. 26).—A medal of bronze $1\frac{1}{4}$ inches in diameter. On the obverse is the head of Lincoln, nearly in profile, facing to the right, surrounded by the words "With malice toward none, with charity for all." On the reverse are the words "The Civil War," and below this the dates "1861-1865," the whole surrounded by a wreath formed by a branch of oak on the left and a branch of olive on the right, the stems joined at the bottom by a conventional knot. The medal is suspended by a silk ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in width, composed of two bands of blue and gray of equal width. All medals to be serially numbered on the rim.

42. Indian Campaign Medal (see fig. 27).—A medal of bronze $1\frac{1}{4}$ inches in diameter. On the obverse is a mounted Indian facing to the right, wearing a war bonnet, and carrying a spear in his right hand. Above the horseman are the words "Indian Wars," and below, on either side of a buffalo skull, the circle is completed by arrowheads, conventionally arranged. On the reverse is a trophy, composed of an eagle perched on a cannon supported by crossed flags, rifles, an Indian shield, spear, and quiver of arrows, a Cuban machete, and a Sulu kriss. Below the trophy are the words "For Service." The whole is surrounded by a circle composed of the words "United States Army" in the upper half and 13 stars in the lower half. The medal is suspended by a silk ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in width, composed of a band of red ($\frac{1}{4}$ inch), a band of black ($\frac{3}{16}$ inch), a band of red ($\frac{1}{2}$ inch), a band of black ($\frac{3}{16}$ inch), and a band of red ($\frac{1}{4}$ inch). All medals to be serially numbered on the rim.

43. Spanish Campaign Medal (see fig. 28).—A medal of bronze $1\frac{1}{4}$ inches in diameter. On the obverse is a conventional castle with the addition of two round-corner towers within a circle composed of the words "War with Spain" in the upper half and in the lower half the date "1898" at the bottom, with a branch of the tobacco plant on the left and a stalk of sugarcane on the right. The reverse is the same as that of the Indian campaign medal. The medal is suspended by a silk ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ in width, composed of two bands of blue (each $\frac{3}{8}$ inch), separated by a band of yellow ($\frac{3}{8}$ inch), with a border of yellow on each edge ($\frac{1}{8}$ inch). All medals to be serially numbered on the rim.

44. Spanish War Service Medal (see fig. 29).—A medal of bronze $1\frac{1}{4}$ inches in diameter. On the obverse is a sheathed Roman sword hanging on a tablet on which is inscribed "For service in the Spanish War." The tablet is surrounded by a wreath. On the reverse is the coat of arms of the United States, with a scroll below, all surrounded by a wreath displaying the insignia of the Infantry, Artillery, and Cavalry. The medal is suspended by a silk ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in width, of green, with a band of yellow ($\frac{1}{4}$ inch), $\frac{1}{8}$ inch from each edge. All medals to be serially numbered on the rim.

45. Army of Cuban Occupation Medal (see fig. 30).—A medal of bronze $1\frac{1}{4}$ inches in diameter. On the obverse is the coat of arms of the Cuban Republic, with wreath and fasces. Around the circumference are the words "Army of Occupation, Military Government of Cuba," and above the shield the dates "1898" and "1902." The reverse is the same as that of the Indian Campaign Medal. The medal is suspended by a silk ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in width, composed of a band of red ($\frac{3}{8}$ inch), a yellow stripe ($\frac{1}{16}$ inch), a band of blue ($\frac{3}{8}$ inch), a yellow stripe ($\frac{1}{16}$ inch) and a band of

red ($\frac{3}{8}$ inch), with a border of blue ($\frac{1}{16}$ inch) on each edge. All medals to be serially numbered on the rim.

46. **Army of Puerto Rican Occupation Medal** (see fig. 31).—A medal of bronze $1\frac{1}{4}$ inches in diameter. On the obverse is a conventional castle with the addition of two round-corner towers, the whole in a circle composed of the words "Army of Occupation, Porto Rico," in the upper half and in the lower half the date "1898" at the bottom, with a branch of the tobacco plant on the left and a stalk of sugarcane on the right. The reverse is the same as that of the Indian Campaign Medal. The medal is suspended by a silk ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in width, composed of a band of blue ($\frac{3}{8}$ inch), a yellow stripe ($\frac{1}{16}$ inch), a band of red ($\frac{3}{8}$ inch), a yellow stripe ($\frac{1}{16}$ inch), and a band of blue ($\frac{3}{8}$ inch), with a border of red ($\frac{1}{16}$ inch) on each edge. All medals to be serially numbered on the rim.

47. **Philippine Campaign Medal** (see fig. 32).—A medal of bronze $1\frac{1}{4}$ inches in diameter. On the obverse is a conventional cocoanut-palm tree. On the left of it is a lamp of knowledge and on the right the scales of justice. The whole is in a circle composed of the words "Philippine Insurrection," and the date of "1899" at the bottom. The reverse is the same as that of the Indian Campaign Medal. The medal is suspended by a silk ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in width, composed of a broad band of blue ($\frac{5}{8}$ inch), between bands of red ($\frac{5}{16}$ inch), with a narrow strip of blue ($\frac{1}{16}$ inch) on each edge. All medals to be serially numbered on the rim. For engraving see AR 600-65.

48. **Philippine Congressional Medal** (see fig. 33).—A medal of bronze $1\frac{1}{4}$ inches in diameter. On the obverse is a group composed of a color bearer holding a United States flag and supported by two men with rifles on their shoulders, the three facing the left. The flag extends to the rim between the words "Philippine" and "Insurrection." Below the group is the date "1899." On the reverse are the words "For patriotism, fortitude, and loyalty" in a wreath composed of a branch of pine on the left and a branch of palm on the right, the stems joined by a conventional knot. The medal is suspended by a silk ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in width, composed of a band of blue ($\frac{5}{8}$ inch) with a stripe of white ($\frac{1}{8}$ inch) separating it from bands of red ($\frac{1}{8}$ inch), white ($\frac{1}{16}$ inch), and blue ($\frac{1}{16}$ inch) on each edge. All medals to be serially numbered on the rim.

49. **China Campaign Medal** (see fig. 34).—A medal of bronze $1\frac{1}{4}$ inches in diameter. On the obverse is the Imperial Chinese five-toed dragon with the head in full face in the middle, within a circle composed of the words "China Relief Expedition," with the dates "1900-1901" at the bottom. The reverse is the same as that of the Indian Campaign Medal. The medal is suspended by a silk ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in width, composed of a band of yellow ($1\frac{1}{4}$ inches) with edges of blue ($\frac{1}{16}$ inch). All medals to be serially numbered on the rim.

50. **Army of Cuban Pacification Medal** (see fig. 35).—A medal of bronze $1\frac{1}{4}$ inches in diameter. On the obverse is the coat of arms of the Cuban Republic with wreath and fasces, supported by two American soldiers with rifles, at parade rest. Above the group are the words "Cuban Pacification", below are the dates "1906-1909." The reverse is the same as that of the Indian Campaign Medal. The medal is suspended by a silk ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in width, composed of a band of olive-drab ($\frac{5}{8}$ inch) with a blue stripe ($\frac{1}{8}$ inch) separating it from bands of white ($\frac{1}{8}$ inch) and red ($\frac{1}{8}$ inch) on each edge. All medals to be serially numbered on the rim.

51. **Mexican Service Medal** (see fig. 36).—A medal of bronze $1\frac{1}{4}$ inches in diameter. On the obverse is the Mexican yucca plant in flower, with mountains in the background. Above the yucca plant are the words "Mexican Service" in the upper half and in the lower half the dates "1911-1917" arranged in a circle. The reverse is the same as that of the Indian Campaign Medal. (1) *For decorations and service medals.*

(a) For the Medal of Honor, to consist of a hexagonal rosette of light blue silk with white stars.

(b) For the Victory Medal, a 5-pointed star $\frac{5}{8}$ inch in diameter on a wreath with the letters "U. S." in the center. To be made of silver for men wounded in action, of bronze for all others. When citation stars have been awarded they may be placed on the wreath between the points of the star specified below, the points being numbered in a clockwise direction, beginning with the point at the top of the star as No. 1:

One star—between the first and fifth points.

Two stars—same as one star, and also between the first and second points.

Three stars—same as two stars, and also between the fourth and fifth points.

Four stars—same as three stars, and also between the second and third points.

See also AR 600-85.

(c) For all other medals, a button $2\frac{1}{32}$ inch in width and $\frac{1}{8}$ inch in length, in colored enamel, being a reproduction in miniature of the service ribbon. When Oak-Leaf Clusters have been awarded in lieu of additional decorations, the miniature Oak-Leaf Cluster may be placed on the lapel button denoting possession of the decoration. When citation stars have been awarded for gallantry in action prior to the World War, the stars may be placed on the lapel button denoting possession of the service medal issued for service in the war or campaign in which the gallantry occurred. See also AR 600-85.

(2) *Officers' Reserve Corps.*—A gold or gold color button $\frac{1}{2}$ inch in diameter, enameled in the color of the arm or service in which commissioned, with the letters "U. S. R." in gold or gold color. Where

PRESCRIBED SERVICE UNIFORM

there are two colors, the letters will be in the color of the piping.

For general officers the button will be gold with the letters in relief.

(3) *Enlisted Reserve Corps*.—Same as for Officers' Reserve Corps, except in bronze instead of gold or gold color.

(4) Corps and division badges of the Civil and Spanish-American Wars, and badges of the shoulder sleeve insignia of the World War, worn in the form of pins or lapel buttons. See paragraph 57.

(5) *For service*.—A dexter eagle with wings displayed perched within a ring which displays seven white and six red vertical stripes with a blue chief bearing the words "National Defense," the dexter wing of the eagle behind the ring, the sinister wing in front of the ring.

e. Lapel ribbons (see fig. 47).—Miniature replicas of the suspension ribbons of decorations (except Medal of Honor) and service medals, $\frac{1}{8}$ inch in width and of suitable length, for wear as authorized by AR 600-40.

59. War Department General Staff identification (see fig. 48).—The coat of arms of the United States, of gold or gold color metal, superimposed on a five-pointed black enameled star; in each reentrant angle of the star, three transparent green enameled laurel leaves; the shield and glory to be in enameled colors, stripes of white and red, chief of blue, and the sky of the glory blue.

a. Regular, additional, and former members of the War Department General Staff.—Star 2 inches in diameter.

b. Chief of Staff and former Chiefs of Staff.—Star 3 inches in diameter.

(Blood types are indicated by the symbols "A," "B," "AB," or "O.")

Third line: Name of person to be notified in case of emergency.

Fourth line: Street address of person to be notified in case of emergency.

Fifth line: City and State address of person to be notified in case of emergency.

The religion of the wearer, when stated, will be stamped in space 18 of the fifth line if that space is vacant, otherwise in space 18 of the fourth line, and will be indicated by a capital letter as follows: C for Catholic; H for Hebrew; and P for Protestant.

After completion of the initial tetanus immunization and the blood typing test, additional records of these data will be made by inserting the identification tag in the model 70 addressograph and adjusting it so that it will print only the first two lines of the identification tag. A record will then be made by operating this machine so that the information contained in the first two lines is printed on the individual's Service Record (W. D., A. G. O. Form No. 24) under "Other vaccinations," and on the Immunization Register (W. D., M. D. Form No. 81) under "Tetanus Toxoid" as indicated. Upon the completion of the immunity stimulating injection of the tetanus toxoid, the last two numerals of the year in which it occurred will be entered on the forms by writing them into the spaces corresponding to spaces 14 and 15 of the printed record, and embossing them on the tag in spaces 14 and 15.
